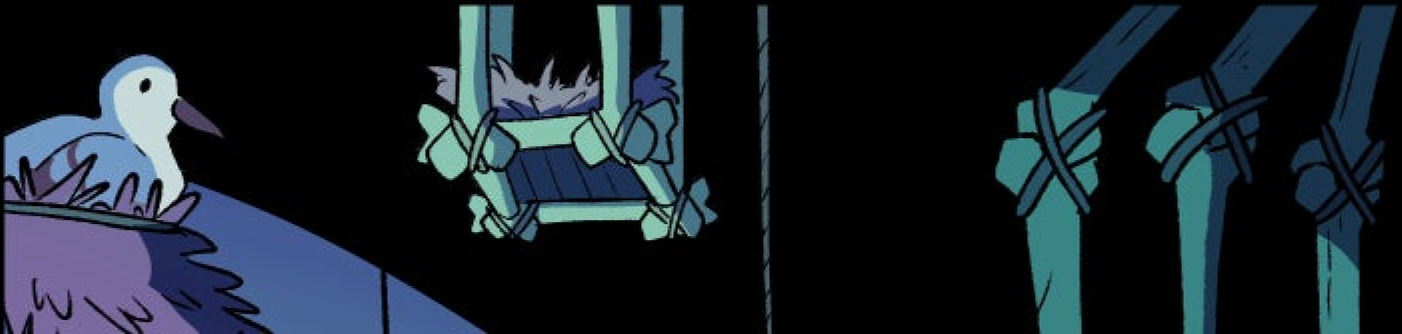
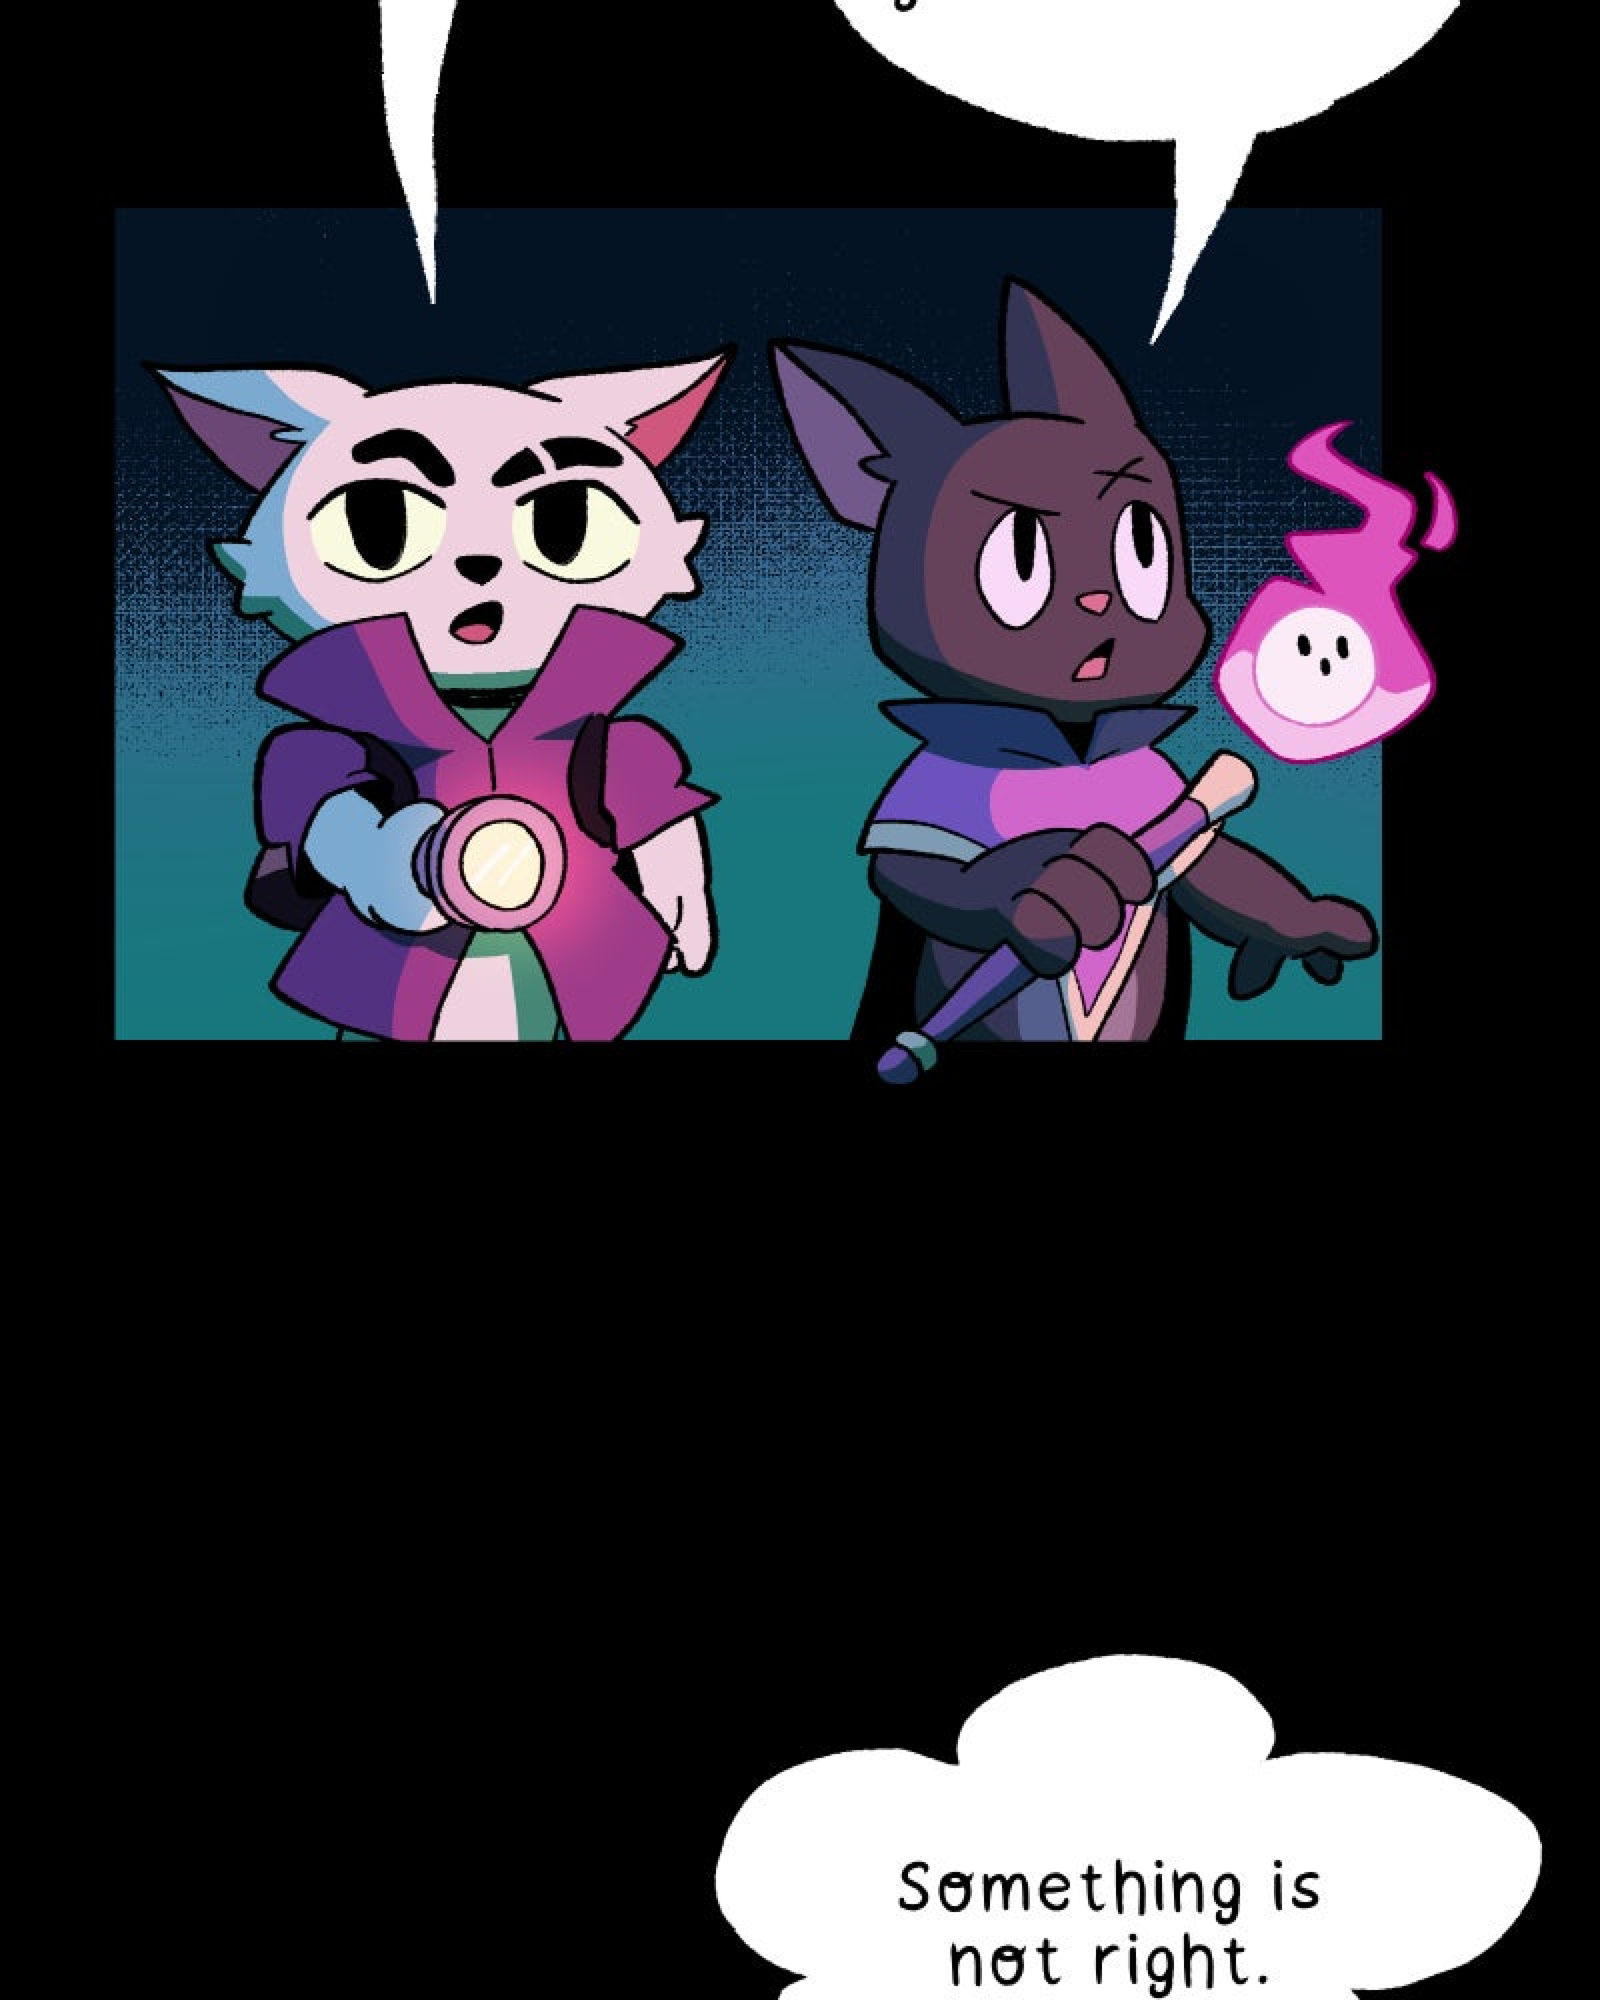
El silbón - TOL Part III

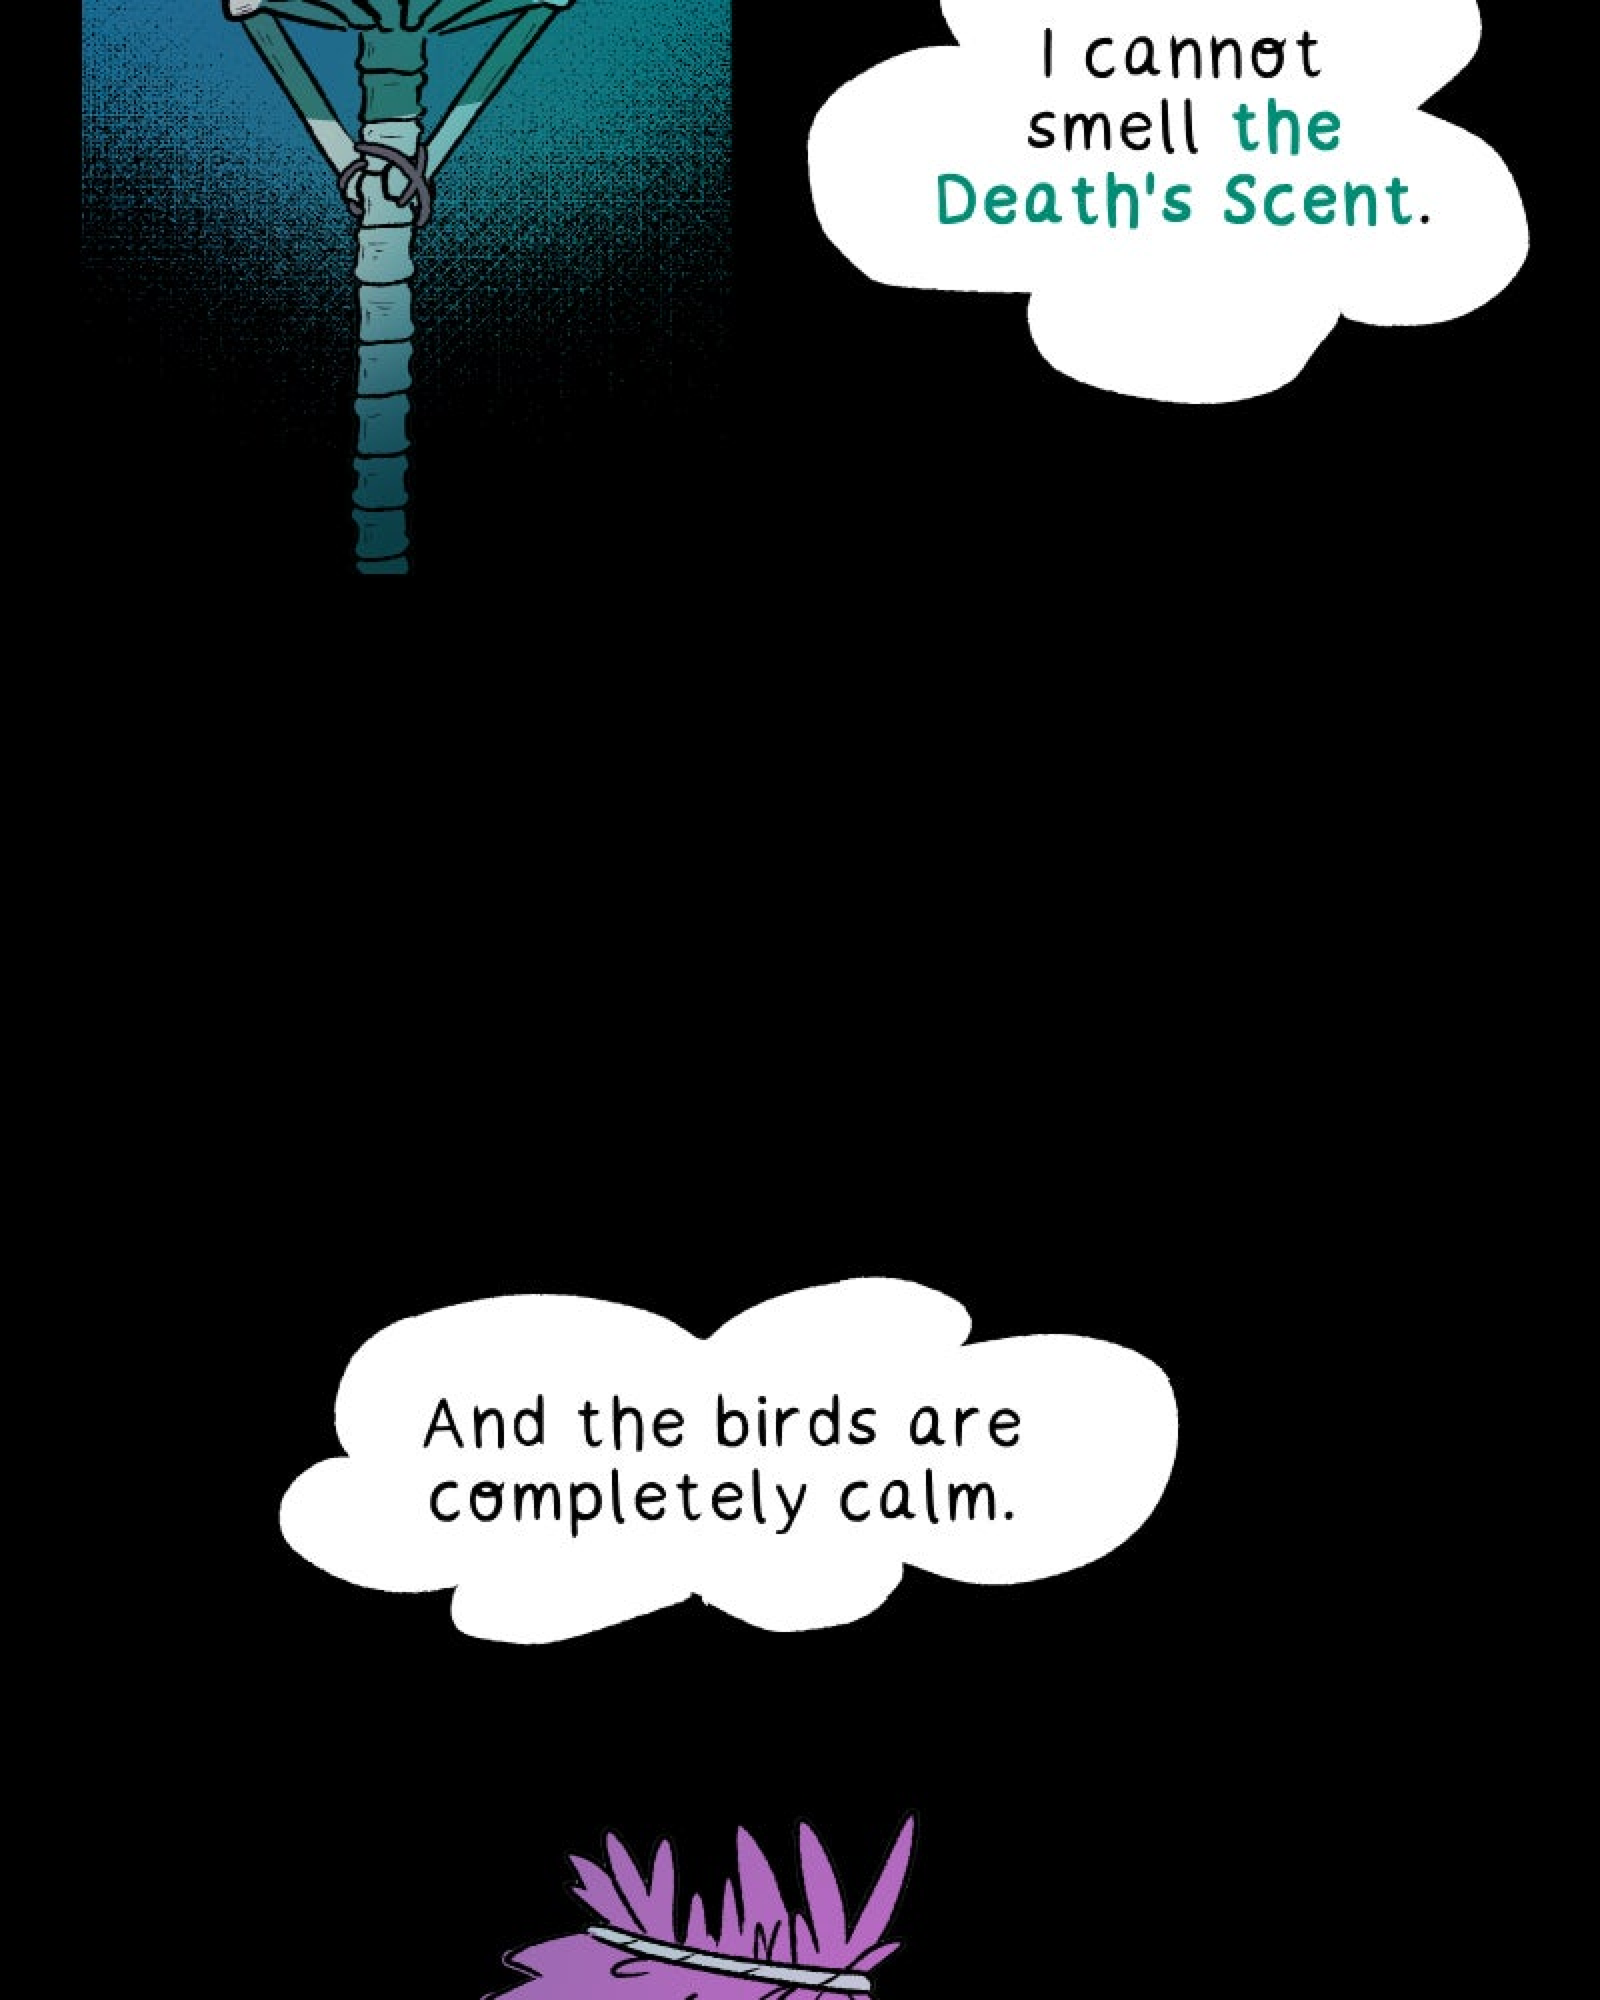
May 28, 2023



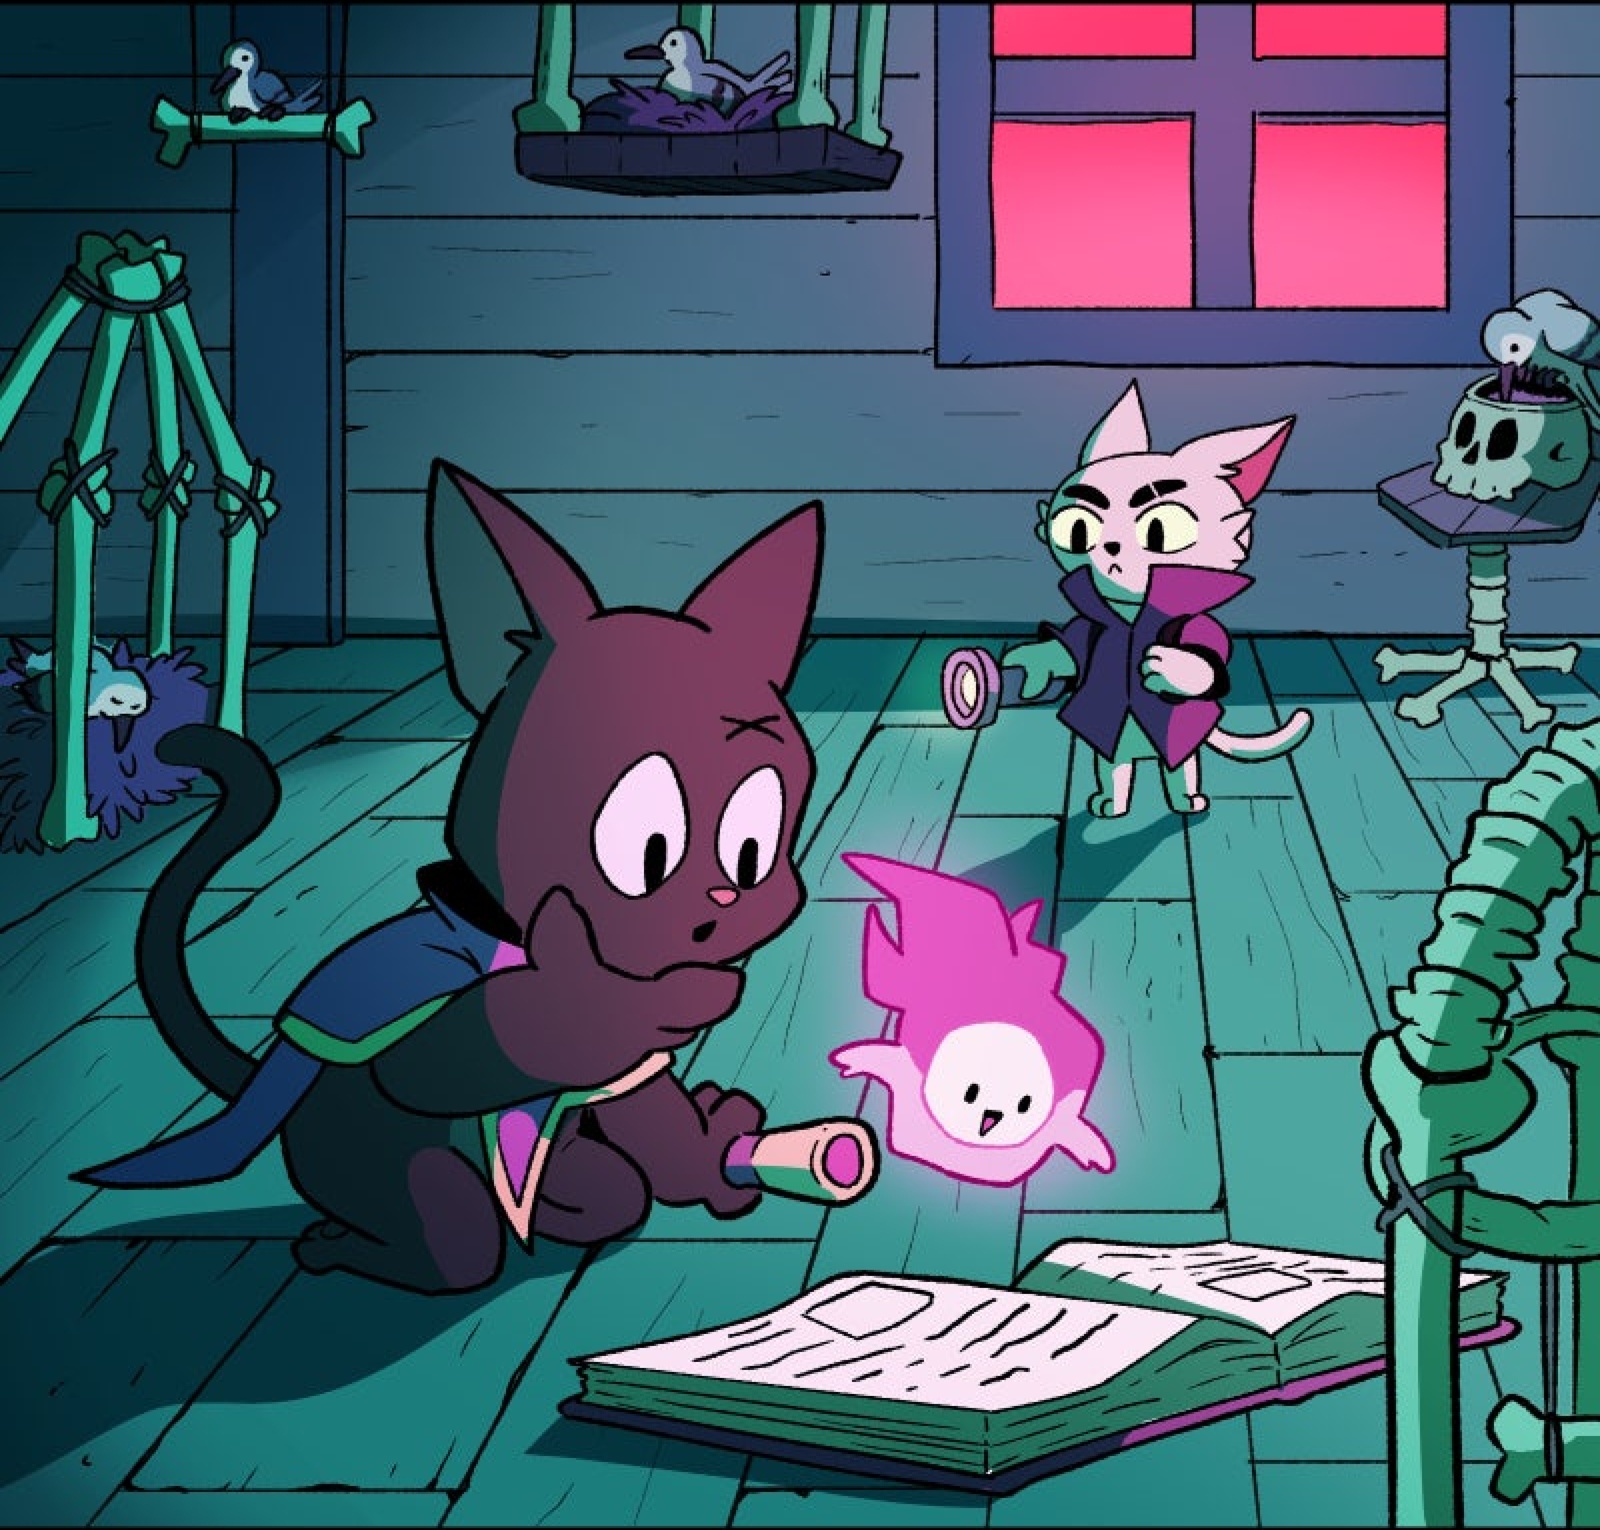
He's taking care of the paraulatas?
It takes a lot of bones to build these... and bones don't grow on trees.



Something is not right.



I cannot smell the Death's Scent.
And the birds are completely calm.



It says here he's afraid of whips and dogs!

And we happen to have a **wolf**!
A **wolf** is not a **dog**.

And for the whip...

WOOOSH

Brush will tie herself to this bone chair and make him trip.
He is so tall and dumb he will fall.

Then you bark at him,
!
WOOF!

We pick his magical bag of bones and we're out!

I will personally tell the story of Lobo, the one who scared the straw out of El silbón.
Forget the Big Bad Wolf, you are the next big thing!

So let me get this straight.
You will use a brush as a whip and a... cat who is pretending to be a wolf, pretending to be a dog... to scare El silbón and take his precious bones.
